CHAIRMAN'S WALL

As a distinguished alumnus of IIM Ahmedabad, I had a promising career in the corporate sector ahead of me. However, my aspirations went beyond just financial success; I yearned to create something of my own that would also allow me to serve society. Additionally, I observed that the traditional education system was failing to provide quality education to children. As a result, I made the bold decision to establish my own school in 2005. My first venture in the education sector was my school at sector 45, Gurugram.

My ultimate goal was to prepare my students for the competitive world and develop them into global leaders, akin to accomplished figures such as Satya Nadela and Indira Nooyi. I always convey a special message to mothers, recognizing that they have the power to transform their child's life, just as Jija Bai did for her son Shivaji.

Our school's primary mission is to enhance our students' personalities by fostering their confidence. I make sure that all the students are fully engaged in activities to help them become equivocal and effective communicators, all in the pursuit of developing global leaders.

I take great pride and satisfaction in seeing our alumni excel in a variety of fields, including medicine, the armed forces, business, engineering, and public service. Our alumni network is strong and we are proud to report that Euroites are working in all top professions.

I extend my deepest gratitude to all the parents for their unwavering support and trust in EURO. I also want to thank my dedicated team for working tirelessly to bring my vision to fruition.

With best regards

PRINCIPAL'S WALL

" When educating the minds of the children, we must not forget to educate their hearts."

DALAI LAMA.

I strongly believe in this quote by Dalai Lama which captures important wisdom about how to approach life and education to make it more significant and fulfilling. Keeping this philosophy in our hearts, we at Euro International School - 51 believe in touching every aspect of our children's lives in the classrooms and outside through our dedication and deep love for children.

Education is one of the means to transmit the light of life and spread the radiance of it in the ambience in which we live. We aim at the all- round, holistic development of each student, laying a lot of impetus on honing every aspect of child's personality that works towards nurturing the child in to a happy and confident individual.

Keeping up the pace with today's ever- changing needs of the community, we not only strive towards academic excellence but also focus on empowering our children to become life- long learners and responsible global citizens of tomorrow.

I take this opportunity to thank all the stake-holders- the Management of Euro Group of Schools for their unwavering support, dedicated and selfless commitment of teachers, our very supportive parent fraternity and the students for their zeal to learn, explore and express. I wish them all, best of fortune, peace and prosperity.

Love & Light
