Maths Quiz

Our school recently organized a Math Quiz Competition to celebrate the joy of numbers. Students from different classes participated with great energy and excitement. The quiz included fun rounds like mental math, puzzles, and logical reasoning.

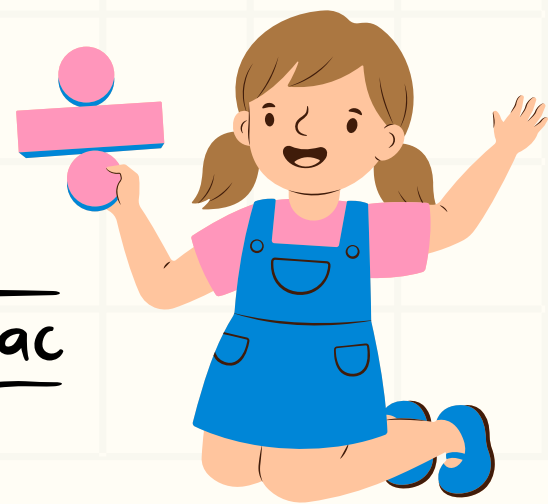

It was wonderful to see everyone solving difficult problems with such speed and teamwork. We congratulate all the winners and participants for their hard work and brilliant performance. This event proved that learning math can be both challenging and fun.

$$\sum_{k=1}^n \frac{1}{f(k) - f(2k)} > \frac{27f(1) - f(n)}{4f(0) - f(1)}$$

$$X = \frac{-b \pm \sqrt{b^2 - 4ac}}{2a}$$
