A TRIBUTE TO OUR INSPIRATION

Late Rao Pahlad Singh Ji, popularly known as 'Bhakat Ji', served as a police sergeant in joint Punjab under the British regime. The RPS Group has its foundation firmly placed in the lofty ideals of this great visionary.

His brilliant son, Dr. O. P. Yadav, inherited the true sacraments and created this chain of institutions which aimed at exploring 'innovative educational routes through rock-solid roots'. After proving its mettle in the state of Haryana, the Group is all set to spread its horizons across the country.

Today, The RPS family continues to pay rich tribute to the forefather by spreading the light of education in its truest sense. May the "Ashirwaad" of the divine soul continue to inspire us to march forward with courage and conviction, spreading the light of knowledge.

OUR BELOVED INSPIRING FOUNDER DIRECTOR

Here is the story about a 'legendary figure' we would like to share with all of you. The story begins in Mahendergarh, a district in the province of Haryana where Dr. O.P. Yadav the great visionary, was born on January 21, 1943 in the family of Rao Pahlad Singh.

Dr. O.P. Yadav fondly called "Bauji" by all RPSians had his schooling in the rural belt and thereafter initiated his career with the Indian Air Force at the very crucial juncture of Indo-China war in 1962. He dedicated 15 prime years of his youth serving the nation as a proud and bravehearted soldier.

A decorated army personnel, a man of virtue, a passionate workaholic Dr. O.P. Yadav popularly known as 'rocket' among his friends was never meant to enjoy a slow-paced, post-retirement life. He was rather meant for a more energized career in judiciary for another 32 years as a reputed senior advocate in Mahendergarh district. He was elected the president of Mahendergarh Bar Association twice and also served as a member of Telecom Advisory Committee, Govt. of India.

Following the sacraments of his forefathers, Dr. O.P. Yadav had the noble idea of imparting 'quality education to all' and so initiated an educational institution with a handful of 250 students in Mahendergarh which now has turned into the 'Mecca of Education' not only for the state but also for the entire nation. The single-mindedness of purpose mingled with dogged determination and the compelling desire to serve the society helped the institution grow in leaps and bounds expanding the system to 17 schools and 07 colleges, catering to the need of some 50,000 students.

Dr. O.P. Yadav-Bauji an outstanding orator, a charming personality and a great leader, served as an eternal lighthouse and mentored countless souls. He was a favourite grandfather, a dotting husband and a loving father who has left a rich legacy that will keep inspiring and motivating the coming generations. An Urdu couplet defines his persona quite aptly:

कुछ लोग थे जो वक्त के सांचों में ढल गए,
कुछ लोग थे जो वक्त के सांचे बदल गए।

Bauji, you shall always remain in our memories and your teachings shall always keep paving the righteous path for all of us...

All RPSians.....

Mahendergarh

I consider myself fortunate to have got an opportunity to work with an institution which has been a remarkable trendsetter in the field of education. The seeds of an extraordinary vision were sown in this branch in 1998 with the dream of making quality education accessible to all. Over decades, RPS Mahendergarh has become a metaphor for excellence and perseverance. Our spectacular achievements in academics, sports and cultural arena are testimony to our 'never-say-die' spirit.

While academic excellence is our major thrust, the school is also devoted to prepare the students for life, groom them to face the challenges of tomorrow and encourage them to be socially relevant. We constantly endeavour to always live up to this ideology and inculcate this into everything we do, with the aim that we will be able to ensure that the children grow to their full potential. I am confident enough that RPSians will make themselves stronger day-by-day, adding new leaves to the grandeur of the Group.

Education has transformed immensely from where it first began and needs to continually transform in the future to meet the growing needs and expectations of society, and for it to deal with the best, the prerequisites are dynamic, positive, effective and productive individuals in the society. In the current system students are facing challenges to learn even the simple skills such as reading and writing. In our experience we have seen that students, regardless of their background, are willing and able to learn when the right kind of educational environment is established. Team RPSD aims towards the holistic development of every RPSian with an educational apparatus structured to be inclusive, engaging and participatory in methods, relevant and purposeful in content that builds knowledge, understanding and the capacity in every student to set a goal, reflect and act responsibly to address all kinds of formidable situations. I feel honoured and privileged to be a part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our students, parents & staff. Our school accords prime importance to the behavioral discipline, moral integrity and cognitive developments of our students. We can achieve what we dream with faith-filled action. We at RPS Sec. 50, are truly exemplifying the vision of the Management by balancing the two aspects-drilling the facts and developing innovation among pupils, by providing an enabling environment that helps nurture and develop every child's unique talent and potential to the fullest. We believe that education must help children to excel holistically across academics, sports, art and co-curricular pursuits while ensuring their safety and well being. We facilitate a certain ambience to recognise challenges and train our young minds by augmenting their skills. We dedicate ourselves every day to impart the very best education to our successors.

Ms. Nikieta Baheti
Rosewood City, Sec. 50
Gurugram

It is truly said that what we can achieve is limited only by how far we can see. Over a traverse of more than twenty years on the journey of educating tender minds, I proudly make my way towards that glimmer that promises a good and sustainable future for our children which is RPGOS. Every year is a milestone that makes me look back. The struggles and pit falls have been the reckoning force for me to learn and strive ahead. The edifice today is an achievement of a collective foresight and united vision of its fraternity.

The responsibility of nourishing young minds is never ending. We must go on towards those gates of excellence that can eventually usher our students into a world of self reliance and solidarity.

As we brace ourselves for this imperative and humble cause of shaping tomorrow we must not only gather strength from our accomplishments but also make correct efforts to shed the redundant and limiting factors that prevent us from touching the pinnacle of excellence.

PRINCIPALS messages

Dr. Sarita V. Singh
Behror

We live today in a world that is so very different from the one we were educated in. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of education.

"Education awakens the power and beauty that lie within us". Education doesn't mean only academic excellence. It, rather, is a harmonious and synchronised combination of hand, head, and heart.

Therefore we, RPSians come up with a vision to foster different facets of a student in order to see him/her developing as a vibrant student, responsible citizen and above all a generous and sentient human being. 'To motivate the weak, to address the average and challenge the gifted' is the teaching vision of our school.

Ms. Priya Kaushik

We offer our students a stress-free learning environment which encourages creativity and critical thinking. Our unique teaching and learning process with a proper blend of theory and practice has taken us to next level of excellence. I proudly work at Indus RPS with a simple intention to offer meaningful education, a learning environment that encourages excellence. We facilitate the students to prepare and develop a strong and confident individual in them, to face the challenges of the outside world with right grit and fortitude. We believe that true education is a right blend of intelligence and character. We will surely continue to educate our students to maximize their innate potential along with positive social behavior, thus developing them as global citizens.
