CHAIRMAN'S MESSAGE

Significant changes are being observed in learning ways of the learners and the teaching methods today. Schools need to adopt new technologies and techniques in their system. I think the role of the teachers in the 21st century is to encourage the students to learn new things with an accepting mindset. The teachers should focus on developing higher order thinking skills, communication skill as well as a spirit of working in collaboration and power of decision making.

It is need of hour to inclined students towards right principles, ethics and moral values. Educational Institutes should focus on advancement in technology and process and offer stress free learning environment which encourages creativity and critical things. Students are also encouraged to dream and make them come true.

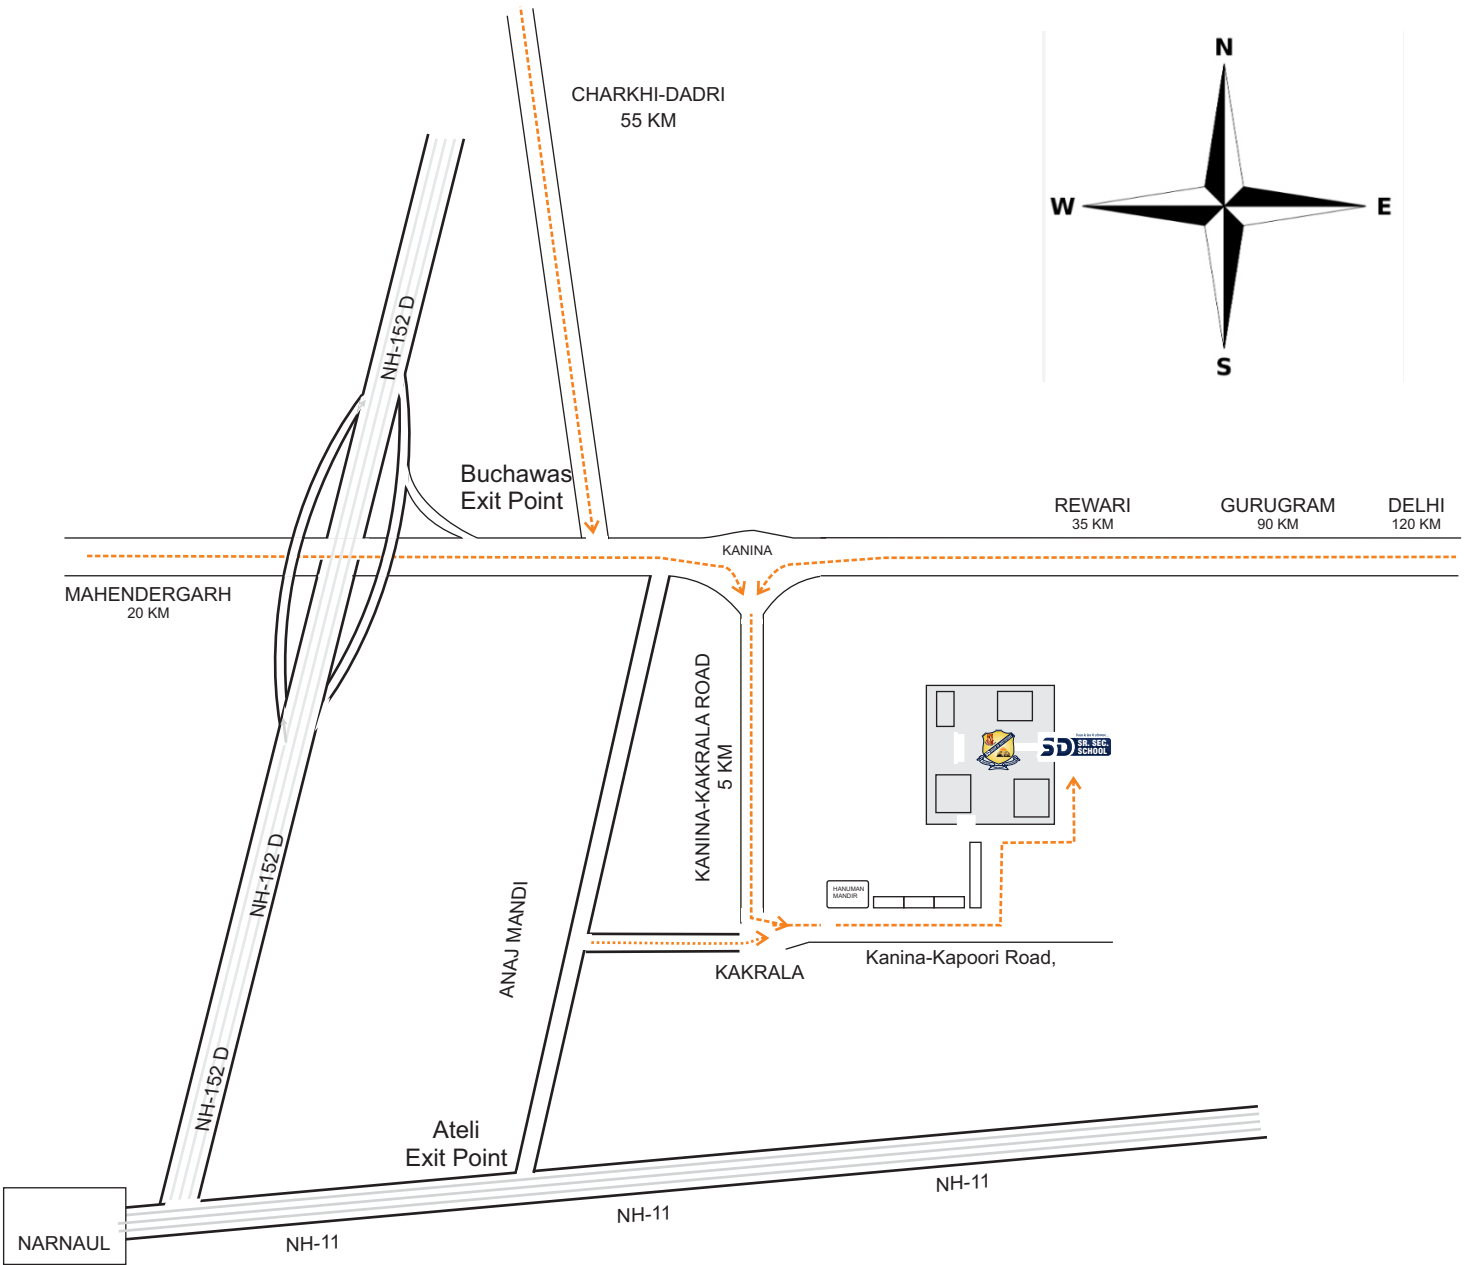

S. D. Sr. Sec. School is providing excellent results in academic as well as other fields also. Our school represents a strong connectivity among the four pillars of education: teacher, student, curriculum and parents. You may observe a glimpse of discipline, determination, dedication and self motivation in SDians. We are in the mission of education to create India's next generation of leaders in business, administration, politics as well as culture.

Apart from the high academic facilities, our school provides a wide variety of opportunities for extra co-curricular activities and sports facilities. Regularly conducted life orientation programs provide a progressive and supportive environment for students to live and learn together as one family.

Mr. Jagdev Yadav

Chairman
