

**ASSIGNMENT**

**Class – 7<sup>TH</sup> NTSE**

**Subject : GEOGRAPHY**

**Max Marks:**

**Time :**

**Chapter -2 Interior of the Earth**

**Q.1 Where is the deepest mine in the world located?**

- a. South America                      b. South Africa  
c. South India                          d. South Australia

**Q.2 The depth of the deepest mine in South Africa is –**

- a. 1 km.                      b. 2 km.                      c. 3 km.                      d. 4 km.

**Q.3 The upper most layer of the earth's surface is called?**

- a. The Crust                      b. The Burst                      c. The Roads                      d. The Forest

**Q.4 What is the radius of the earth?**

- a. 3671 kmb. 7163 km                      c. 6371 km                      d. 1736 km

**Q.5 Any natural mass of mineral matter that makes up the earth's crust is called –**

- a. rock                      b. road                      c. sediment                      d. none of these

**Q.6 The sediments are transported and deposited by –**

- a. Wind                      b. Water                      c. Wind and water                      d. None of these

**Q.7 The process of transformation of the rock from one form to another is known as –**

- a. Road cycle                      b. Food cycle                      c. Rock cycle                      d. All of these

**Q.8 Which rock is the molten magma made up of?**

- a. Igneous                      b. Metamorphic                      c. Sedimentary                      d. None of these

**Q.9 What is the Latin of Igneous?**

- a. Ignis                      b. Sedimetum                      c. Metaphose                      d. None of tthese

**Q.10 Rocks which contain fossils are called?**

- a. Metamorphic rock                      b. Igneous rock  
c. Core                      d. Sedimentary rock
