GENDER EQUALITY AT RPSCET

An educational institute plays very important role to sensitize the students towards gender issues. It is very necessary to change the mindset of students towards the opposite sex, and to achieve this, teachers always council them in the class room and in the campus to respect each other. Our college is well prepared to handle and respond to any gender sensitive issues and provide an environment where both men and women can work together with a sense of not only the personal security but also with dignity.

Gender equality, equality between men, women and transgender does not mean that they have to become the same, but that their rights, responsibilities and opportunities will not depend on whether they
were born male or female. Gender equity means fairness of treatment to all genders according to their respective needs.

Gender is a cross-cutting issue that has been of persistent importance across the globe. Gender Equality, Women Empowerment, Choice of every gender to work are strategies to reduce poverty, reduce social injustices among the genders, accelerate growth levels, improve health standards and contribute to a healthy, financially strong and a conducive domestic environment in the country. Gender parity is also regarded as attainment of human rights and a pre-requisite for sustainable development.

Gender awareness allows women to move beyond other conventional gender stereotypes and rigid gender role definitions. Many discussions and campaigns about Gender equity allow the women gender and also the transgender in the recent times to take spontaneous action against their oppression or exploitation. Gender equality denotes women having the same opportunities in life as men, including the ability to participate in the public sphere. This calls for a fair Gender Policy to be incorporated for an equitable treatment and opportunities at workplace. Implementation of the Gender Policy will require the commitment, participation and contribution of every staff member.

Gender equity denotes the equivalence in life outcomes for women and men, recognizing their different needs and interests, and requiring a redistribution of power and resources. Both are indispensable and need to be incorporated into the Gender Policy of a large educational institution like RPS CET, which believe in fair and justifiable treatment to all. The policy aims to eliminate harassment on the basis of gender which is any act or threat by men or male-dominated institutions that inflicts physical, sexual, or psychological harm on a woman or girl because of their gender.

The college always concentrates on the student’s qualitative performance along with their overall personality development. Observing the gender equality, the girls are provided with various facilities and special attentions. The NSS has separate unit of girls. The unit always motivates girls for their social responsibilities. The Library has a separate sitting for the Girl students. The Girls Common Room situated on the Ground floor of the College has a Sanitary Napkin Vending Machine. Separate Washrooms for Girl students on each floor are equipped with basic amenities like dustbins, mirror and shelves. Lady peons are assigned duty on each floor at all times.
Workshops are held on “Women and Human Rights” to make the girls aware of their rights and responsibilities. Girls are made aware of laws and by-laws by organizing lecture of eminent judges, lawyers etc. Eminent Doctors and Gynecologists are invited to deliver lectures on “Menstrual Hygiene”.

Each student committee of the college has a fair balance of Girls and Boys in participation and also Teacher In-charges to cater to their issues.

**GENDER AUDIT**

The College conducted Gender Audit in 2023-24 to create awareness about respect for every gender and also to identify ways to make college campus safe for women. The Women Development Cell of the College ensures awareness about their objectives throughout the year by conducting various seminars, self-defense workshops and motivational lectures about women empowerment. As per the guidelines of Supreme Court, UGC, Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013, an Internal Complaints Committee has been established by the College with an objective to Prevent Sexual Harassment of any gender at the college. Various seminars, Guest Lectures and workshops are organized throughout the year to teach the students about their rights and laws and to fight against any kind of sexual harassment.

A gender audit is a tool to check and assess the institutionalization of gender equality into organizations, including in their policies, programs, projects and/or provision of services, proceedings etc. The basic assumption of gender audit in an educational institution is that public policy impacts differently on female and male learners. The purpose of gender audit is to lead to changes in public policy that contribute to an increase in gender equality. Unless a gender audit is done, we cannot answer the question: Is the Institution doing everything it can to improve the status of women in general and the representation of women’s voices in particular?

UNICEF says gender equality “means that women and men, and girls and boys, enjoy the same rights, resources, opportunities and protections. It does not require that girls and boys, or women and men, be the same, or that they be treated exactly alike”.

On a global scale, achieving gender equality also requires eliminating
harmful practices against women and girls, including sex trafficking, femicide, wartime sexual violence, gender wage gap, and other oppression tactics.

**Objectives of Gender Audit**

1. To identify the areas where the gender inequality exists.
2. To identify the probable reason for the gender inequality.
3. To maintain good gender balance in all fields of college.
4. To advise ways to bridge the gender gap.
5. To implement prevention of sexual harassment effectively.

The Gender Audit was conducted in the following process –

i) Orientation of the students and Staff members through various activities like webinars, Guest Lectures, Interactive Talk-shows, Workshop and Research Conference. Posters, PPT Presentations, Debate Competitions and Statistical Research cases were also presented.

ii) Questionnaire was circulated among the students & staffs to understand their awareness about women safety in the College premises.

iii) Statistical Gender Analysis was collected of all staff-members, students and management.

RPS CET hopes to create, attract and retain gender sensitive staff who in turn would help achieve better man-woman relationships in the community and make all our students responsible citizens of this country.

REPORT

Internal Complaints Committee (ICC), RPSCET, Balana, Mahendergarh organized an Awareness and Sensitization Programme entitled “Identifying and Preventing Sexual Harassment” in the Workplace on 19th September, 2022. This program was planned to sensitize members of the staff and students on Identifying and preventing harassment in their work spheres. The Hon’ble Chairperson, Dr. Pavitra Rao, inaugurated this sensitization program.

The programme started with a brief welcome note by Dr. M.K. Yadav, Director-RPSCET. In his welcome address, he spoke about gender sensitization which leads to making both women’s as well as men’s concerns and experiences an integral part of all policies and programs in an organization so that all can benefit equally. He reminded that sensitization is by far the most effective and non-confrontational approach to reforming society. He said that each individual in society needs to play a unique role in their respective endeavour, it may be at home or in the workplace, or in society to ensure gender equity. We should not be gender biased. He addressed gender discrimination as a social disease.

Mrs Geetanjali Gandhi, Assistant Professor, CSE, & Presiding Officer -Internal complaints committee (ICC) RPSCET, briefed about the ICC activities of RPSCET. She said that the main objective of this committee is the prevention of any kind of sexual harassment within the organization. She also spoke about the different awareness programmes and Seminars that have been organised by the ICC from time to time. She also said as a member of ICC it is our responsibility to ensure gender equality within the organization and to maintain the principle of sustainability so that everyone feels comfortable.

Dr. Kusum, Assistant Professor, Management, was the speaker of the programme. She said that harassment in the workplace is a reality and the subsequent enactment of sexual harassment of women in the workplace (Prevention, Prohibition and Redressal) Act, 2013 has helped in countering such inappropriate and unwarranted behaviour and created greater awareness among workers on the issue. Still further awareness needs to be created on this and thus by sensitizing society we can create this greater awareness. Finally, proactive, aware and empowered organisations along with their employees can become agents of change and create an appropriate workplace where all can work, co-exist with dignity, sense of personal security, equality and respect.

She pointed out various types of sexual harassment, sometimes we are so accustomed to different abuses that we forget to identify them as sexual harassment. Not only women are sexually harassed but at the same time, small kids are also victims. From a newborn baby to an old woman, everyone is a victim of sexual harassment.
She said we don't consider marital rape as sexual harassment. She said body shaming is also a kind of sexual harassment. She shared her friend's experience where she needed to leave her job just because she is a woman and she used to receive many letters where she was threatened to be killed or acid attacked. She pointed out some rampant cases of sexual discrimination from society, mentioned the Nirbhaya case (Delhi gang rape Case, 16th December 2012) & many more. -The information needs to be communicated through Posters, stickers, circulars, newsletters, in-house journals, announcements to the staff, etc.

She also shared the role of ICC and how this committee can work. The rules and the responsibilities of the committee are to prevent sexual harassment and to provide redress if a complaint is lodged Most employees don’t launch any complaints to ICC however that doesn't ensure that there are no such issues in the workplace. We must address them and take proper steps to prevent such unwarranted behaviour.

As responsible citizens, we must spread awareness among others, especially in rural areas, and also among kids, and teenagers about different types of sexual harassment and how to confront such acts fearlessly.

Finally she concluded that whenever women are sexually harassed or abused at workplaces it involves sexual coercion, intimidation, deprivation of their right to work in a violence-free atmosphere, and a hostile work environment that affects their safety, well-being, and health.

The Internal Complaints Committee (ICC) plays a crucial role in addressing and preventing workplace harassment, particularly sexual harassment. The objectives of an Internal Complaints Committee of RPS College of Engineering & Technology include:

1. **Preventing Harassment**: The primary objective of the ICC is to prevent instances of harassment within the organization. This involves creating a safe and respectful work environment where all employees can perform their duties without fear of harassment.

2. **Handling Complaints**: The ICC is responsible for receiving and addressing complaints related to harassment. This includes conducting a thorough and impartial inquiry into each complaint, ensuring confidentiality, and taking appropriate actions based on the findings.

3. **Promoting Awareness**: The committee works towards creating awareness about what constitutes harassment, the reporting mechanisms available, and the consequences of engaging in such behavior. This awareness can help in preventing incidents of harassment and promoting a culture of respect.

4. **Policy Implementation**: The ICC is tasked with implementing and enforcing the organization's anti-harassment policies. This involves ensuring that employees are aware of these policies, understand their rights and responsibilities, and are encouraged to report any incidents without fear of retaliation.

5. **Providing Support**: The committee may provide support to victims of harassment, including guidance on available resources, counseling services, and legal options. Creating a supportive environment for those who come forward can encourage reporting and contribute to the overall well-being of employees.

6. **Training and Education**: The ICC may organize training programs for employees to educate them about harassment, its impact, and the organization's commitment to preventing it. Training can also include information on bystander intervention and creating a respectful workplace culture.

7. **Documentation and Reporting**: Keeping records of complaints, investigations, and actions taken is an essential function of the ICC. This documentation helps in tracking patterns, ensuring transparency, and demonstrating the organization's commitment to addressing harassment.

8. **Regular Review and Improvement**: The committee should regularly review its processes and procedures to identify areas for improvement. This may involve assessing the effectiveness of policies, training programs, and support mechanisms to enhance the organization's overall approach to preventing harassment.
9. **Legal Compliance:** Ensuring compliance with relevant laws and regulations related to workplace harassment is a crucial objective. The ICC must stay informed about any changes in legislation and update policies and procedures accordingly.

10. **Cultural Transformation:** Ultimately, the ICC aims to contribute to a positive cultural shift within the organization, where all employees feel respected, valued, and free from harassment. This involves promoting a culture of inclusion, diversity, and zero tolerance for any form of workplace harassment.

RPS Group of Institutions

Report on Menstruation Awareness Program

Date: September 28, 2023

Introduction:

The CRC Team at RPS Group of Institutions organized a 60-minute online Menstruation Awareness Program in collaboration with UNICHARM, a leading Japanese firm in India. The program was conducted on September 28, 2023, with consecutive sessions held for Degree students and Engineering/Management students.

Session Coordination:

Degree Students Session: The session for Degree students was expertly coordinated by Dr. Smita Yadav, who ensured a smooth and informative experience for all participants.

Engineering and Management Students Session: For the Engineering and Management students, Ms. Komal Arora took charge of coordination, facilitating an engaging session tailored to their specific interests and concerns.
Speaker Profile:

Ms. Nitya Chaudhary, a specialist in Social work, women empowerment, and project management, served as the keynote speaker for both sessions. She has been an integral part of UNICHARM India's CSR team since 2016 and brought her wealth of knowledge and experience to the program.

Program Highlights:
The Menstruation Awareness Program covered a range of crucial topics, including:

Understanding Menstruation: Ms. Chaudhary provided insights into the biological aspects of menstruation, emphasizing its significance and the menstrual cycle.

Hygiene and Care: Participants learned about essential hygiene practices and effective menstruation management techniques to promote comfort and confidence.

Breaking Stigmas: The program addressed societal myths and taboos surrounding menstruation, encouraging participants to actively challenge and dispel these misconceptions through education and awareness.
Interactive Q&A: Both sessions included an interactive Q&A segment, allowing participants to seek expert advice and gain further clarity on menstruation-related topics.

Conclusion:
The Menstruation Awareness Program was a resounding success for our female students with valuable knowledge and insights into a topic that is often shrouded in stigma and misconceptions. We extend our heartfelt gratitude to Ms. Nitya Chaudhary and UNICHARM for their invaluable contributions to this initiative.

Empowering our students with information and promoting open dialogue about menstruation is essential to ensuring their well-being and fostering a more inclusive and informed society.
We look forward to organizing more such informative sessions in the future and continuing our partnership with organizations like UNICHARM to bring about positive change in our community.
