

# RECREATIONAL TRIP REPORT

---

Date: **March 6th, 2024.**

Venue: **Lohagarh Farm, Gurugram.**

Participants: **25 MBA students of Management Department.**

Coordinators: **Ms. Komal Arora & Miss Renu Sharma.**

- 1. Introduction:** The recreational trip organized for the **MBA Final Year students** of the **Management Department** of **RPS College of Engineering and Technology, Balana** on **March 6th, 2024**, at **Lohagarh Farm, Gurugram**, was a resounding success. The purpose of the trip was to provide students with a break from their academic routine and foster team-building and relaxation.
- 2. Preparations and Planning:** The trip was meticulously planned by the organizing committee, considering factors such as transportation, activities, meals, and safety measures. Prior coordination with Lohagarh Farm management ensured smooth execution of the itinerary.
- 3. Transportation:** A comfortable College bus was arranged to transport the students from RPS College Campus to Lohagarh Farm and back. The transportation arrangements were efficient, with timely departures and arrivals, ensuring the convenience of all participants.
- 4. Activities:**
  - a. Team-Building Exercises:** Various team-building activities were conducted to promote collaboration, communication, and leadership skills among the students. These included trust falls, rope courses, and problem-solving games.
  - b. Recreational Sports:** Students engaged in a range of recreational sports such as volleyball, badminton, and cricket, fostering a spirit of friendly competition and camaraderie.
  - c. Cultural Performances:** To add an element of cultural enrichment, students showcased their talents through dance, music, and skits, reflecting the diversity and creativity within the MBA cohort.

d. **Nature Walks:** Guided nature walks allowed students to explore the lush surroundings of Lohagarh Farm, providing a refreshing break from their urban lifestyles.

e. **Farm Activities:** Students actively participated in farm-related activities such as vegetable picking, pottery making, and tractor rides, Camel Cart Rides gaining insights into rural life and sustainable practices.

5. **Meals:** Sumptuous meals were provided to the students, including breakfast, lunch, and snacks, prepared hygienically and served buffet-style. The culinary experience added to the overall enjoyment of the trip, with a variety of dishes catering to different dietary preferences.
6. **Feedback and Reflection:** At the conclusion of the tour, feedback was solicited from the students to assess their experience and identify areas for improvement. Overall, the response was overwhelmingly positive, with students expressing gratitude for the opportunity to unwind, bond with peers, and explore new activities. Constructive feedback will be incorporated into future trip planning to ensure continued satisfaction and engagement.
7. **Conclusion:** The recreational tour to Lohagarh Farm was a memorable and enriching experience for the MBA students of RPS College of Engineering and Technology. Through a well-rounded itinerary encompassing team-building exercises, recreational activities, cultural performances, and culinary delights, the trip succeeded in fostering camaraderie, relaxation, and personal growth. Such initiatives play a crucial role in enhancing the holistic development of students and strengthening the bonds within the academic community.
