International Yoga Day is observed every year on June 21, as mandated by the United Nations, to highlight the importance of the practice — defined as “physical, mental, and spiritual” at the same time — in helping people lead a healthier lifestyle. The day is marked to raise awareness of the many benefits of Yoga, as it continues to grow in popularity across the world and is practiced in its various forms.

2021 International Day of Yoga, to be observed on Monday next week (June 21), much relevant for our times in a society still recovering from the impact of the coronavirus disease (Covid-19) pandemic.

So let us start our journey towards fitness as....

"It's never too early or too late to work towards being the healthiest you"

COVID VACCINATION

24 24 24
The COVID-19 vaccine is a new type of vaccine that is designed to protect you from the virus that causes COVID-19. It is made from a weakened form of the virus or from a piece of the virus's genetic material. When you get the vaccine, your immune system will learn to recognize the virus and fight it off if you are ever exposed to it.

24 24 24
The vaccine is safe and effective. It has been tested in large clinical trials and has been found to be safe and effective in preventing COVID-19. It is also easy to get and does not require any special equipment or facilities.

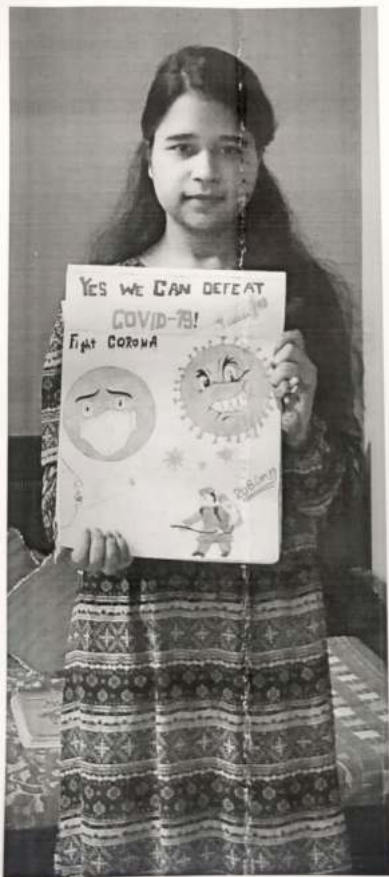

24 24 24
The vaccine is available to everyone who is 16 years of age or older. It is free of charge and is available at many locations, including pharmacies, community centers, and government buildings. You can find a location near you by visiting the CDC website or calling 1-800-232-0223.

24 24 24
The vaccine is a key tool in the fight against COVID-19. It can help to reduce the number of people who get sick and die from the virus. It can also help to prevent the virus from spreading to others. Getting the vaccine is one of the best things you can do to protect yourself and your community.

Online webinar on Liquid crystal Material and their applications

Department of Physics, RPS Degree College, Balana, Mahendergarh, Haryana has organized an online webinar on 19th May, 2021 by Dr. Jai Prakash, Assistant Professor at Department of Physics, Aligarh Muslim University, Aligarh. The topic of talk was "Liquid crystal Material and their applications". It is anticipated that about 200 students of M.Sc. Physics 2nd and 4th sem, B.Sc. (Hons. Physics) 4th and 6th sem with faculty members participated for the same from 11:00 a.m. to 01:00 p.m. through Zoom meeting.

Dr. Jai Prakash discussed about the importance of liquid crystals and their applications. He also explained liquid crystal display and discotic liquid crystal. At the last, he shared Key Mantras for Success to the students. During his interesting talk, he gave various basic information about Physics in daily life. Overall it was a very effective, informative and interesting talk.

Micelles?

Micelles are types of molecules formed by the association of aggregation

They consist of a core of hydrophobic chains (tail) and a shell of hydrophilic head with water by hydrogen bond interaction. The hydrophilic head of the tails, which help to work as

The hydrophilic tails of amphiphilic molecules form a nucleus of water molecules. The hydrophobic tails of the molecules are attracted to the nucleus of water molecules and form a nucleus of water molecules. The hydrophilic heads of the molecules are attracted to the nucleus of water molecules and form a nucleus of water molecules.

Discotic liquid crystal

Discotic molecules can also form the liquid crystal phases.

In these disks molecules the axis perpendicular to the plane of the disk is the direction of specific direction.

The glasses and molecules that form them are called discotic liquid crystals.

The discotic liquid crystals are also mesogenic, mesogenic (anisotropic) and chiral nematic types.

(About the Speaker)

Dr. Jai Prakash is currently working as an Assistant Professor at physics department of Aligarh Muslim University, Aligarh. He is an experimental condensed matter physicist with research interest in liquid crystal, materials, colloidal suspensions, disordered, and optomechanical materials. The main objective of his research team is to work on liquid crystal materials based applications for societal benefits.

He did his M. Sc. in Physics from Aligarh Muslim University and Ph.D. in Physics from IIT Delhi. He has been a postdoctoral fellow at South Almy Aligarh, Dr. Prakash worked at Central University of Punjab, Bathinda and Central National Physical Laboratory, New Delhi. Dr. Prakash has received prestigious INSPIRE Faculty Award from DST. He has published about 82 research articles in reputed highly impact international journals and has 2 patents to his credit. The citation of his published papers is more than 1400 (Scopus) and 1100 in ISI. Recently, he was selected as a member of Indian National Young Academy of Science (INAYAS).

About the Department of Physics, RPS Degree College, Mohindergarh
Located on the scenic campus of RPS Degree College, Department of Physics started its activities in 2012 i.e. the birth year of the college. It soon evolved into a hub of scientific knowledge at undergraduate (UG) and postgraduate (PG) levels as well as centre for research with progressive work in Nanoscience and Nanotechnology.

The expert, dedicated and research oriented faculty of the Department attempts to impart quality education to both UG (B.Sc. Non-Medical & Honours) and PG students in the fields like Condensed Matter Physics, Electronic, Classical Physics, Quantum Physics, Electromagnetic theory, Nuclear Physics and many others.

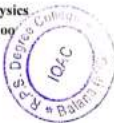

The Department provides fully developed instrumentation (analog) Solid State Physics Lab, Analog and Digital Electronics Lab, Communication and Room and Classical Physics Lab.

The Department also give various coaching programs for IIT-JEE, NEET-JEE, GATE, UPSC, IAS, IISCT, etc. and many other similar exams. (Website:rpsdegreecollege.org)

RESULT AND REPORT

Virtual Event cum Expert Lecture

Department of Physics, RPS Degree College, Balana, Mahendergarh is organized a Virtual Event cum Expert Lecture on the occasion of "International Day of Families" on 15.05.2021. The event includes two activities entitled Group Discussion on Family values and Poster Presentation based on Theme International Day of Families. All the students of B.Sc. (Hons. Physics) 6th sem were participated in the event. Based on the performances of the students, the result of the activities is as follows:

Name of Activity	Name of student	Roll No.	Positions
Group Discussion on Family values	Ms. Monika Yadav	18HP23	FIRST
	Mr. Nirmal	18HP10	SECOND
Poster Presentation	Ms. Anjali Yadav	18HP04	FIRST
	Ms. Manisha	18HP16	SECOND

Apart from this, an Expert Lecture is also delivered by Dr. Kajal Kumar Dey, Scientist/Assistant Professor and Head, Nano Science Department, Veer Bahadur Singh Purvanchal University, Jaunpur on the importance of Family in our life. He shared his views and ideas about the significance of nuclear and joint families with the students.

Expert lecture series

Department of Physics, RPS Degree College, Balana, Mahendergarh organized an expert lecture on "Scope in Physics after M.Sc." delivered by Dr. Hitesh Borkar, Assistant Professor, Department of Physics, NIT Warangal, Telangna on 02.05.2021 from 10:00 a.m. to 12:15 p.m. through ZOOM meeting App.

It is anticipated that about 53 (fifty three) students of M.Sc. Physics 2nd sem with Five (05) faculty members were participated for the same.

Dr. Hitesh Borkar focused on various competitive exams including NET-JRF, GATE, BARC, TIFR, ISRO and many others and their patterns.

Apart from this, Dr. Borkar also motivates the M.Sc. students for getting good position in academic as well as research areas.
