Due to impact of COVID-19 pandemic and serious outbreak across the world, a drastic change is taking place among educational institutes of adopting online mode of teaching learning. In this context, the main objective of this Faculty Development Programme is to quality use of this period having consideration of suggestions of UGC to promote research orientation.

GIS is the key in the field of geographical studies. Teachers and researchers of this field required better skill of various available techniques and software.

The present program is designed in such a way for the two week, so as to give exposure to the participants about application of GIS in various fields along with practical knowledge of open source software like Q GIS.

We tried to cover a vast area of application from Environment to Agriculture, Urban planning to disaster management.

Our resource persons who associated with reputed institutions of our country, given their best to have the wonderful presentations and effective demonstrations in this event.

In collaboration with the department of Geography of Swami Shraddhanad College, Delhi, The department of Geography of RPS Degree College has organized this 15 day online faculty development program on Application of GIS.
