

## Implementation of e-governance in areas of operation

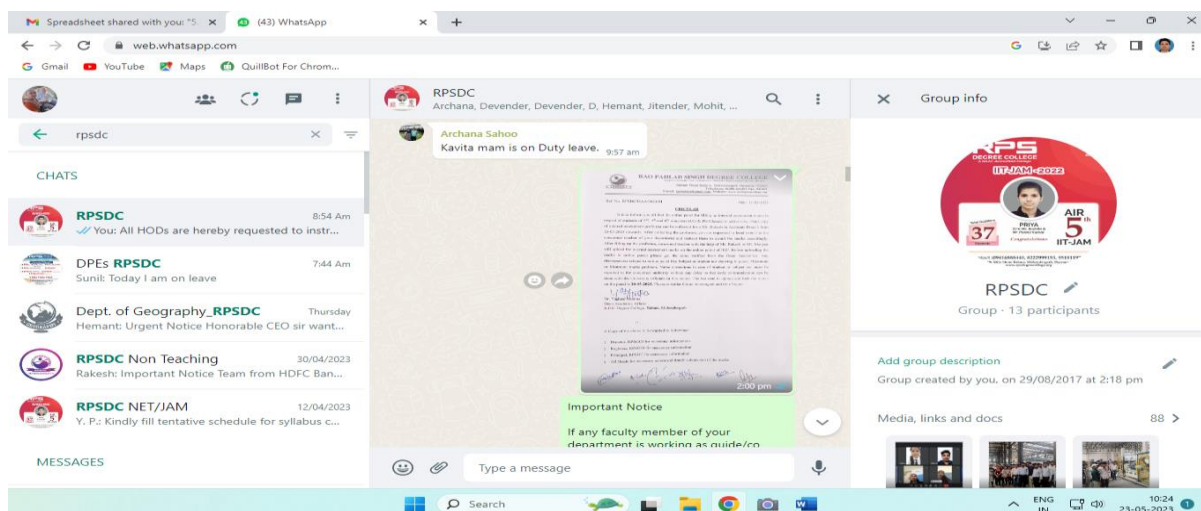

E- governance is implemented in almost all of the administration work in college as there is the integration of electronic systems and technology to enhance administrative processes and improve governance. There is digitization and automation of various administrative tasks, such as admissions, student records management, course registration, fee payment, examination management, and communication between students, faculty, and administrators

1. **Administration:** For e-governance in administrative works we have created WhatsApp groups of all the faculty members and Head of the Departments. The information related to administrative work are quickly spread through the groups to faculty members and HODs. We also use email services to circulate the news, notices, circulars etc. quickly. College is also having the facilities of erp portal (RPS Campus App) to convey information to the faculty members. All the faculty members have their registered account. Here are some screen-shots:

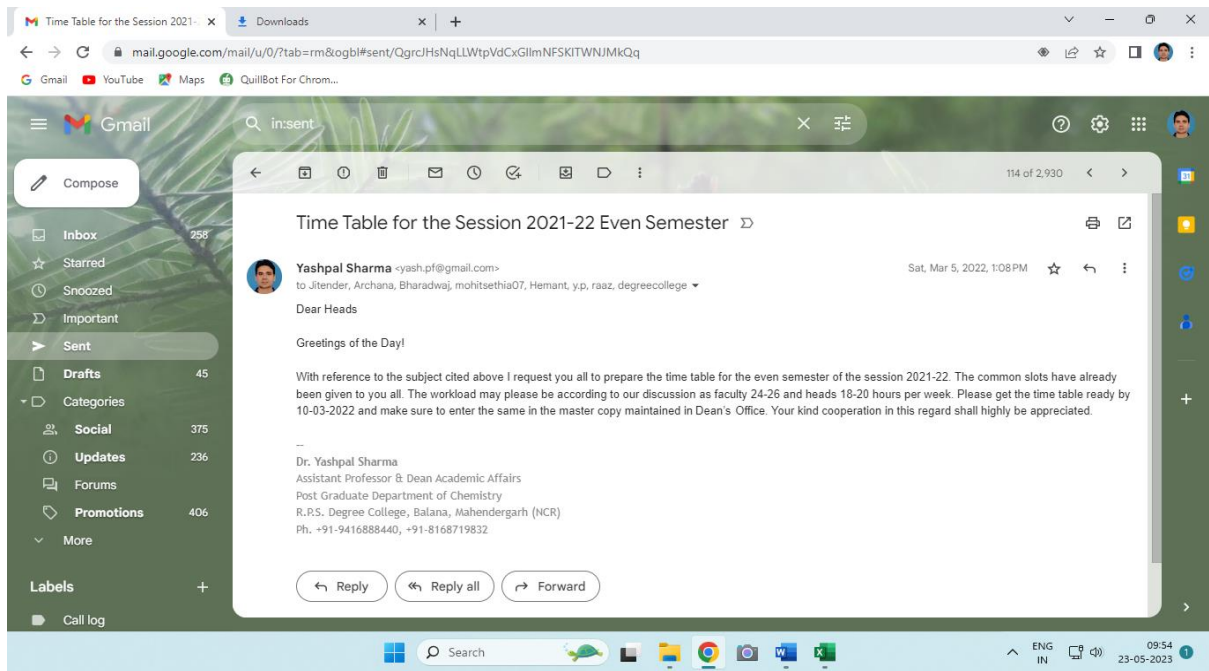

### WhatsApp Group “RPS Degree College” for Faculty Members

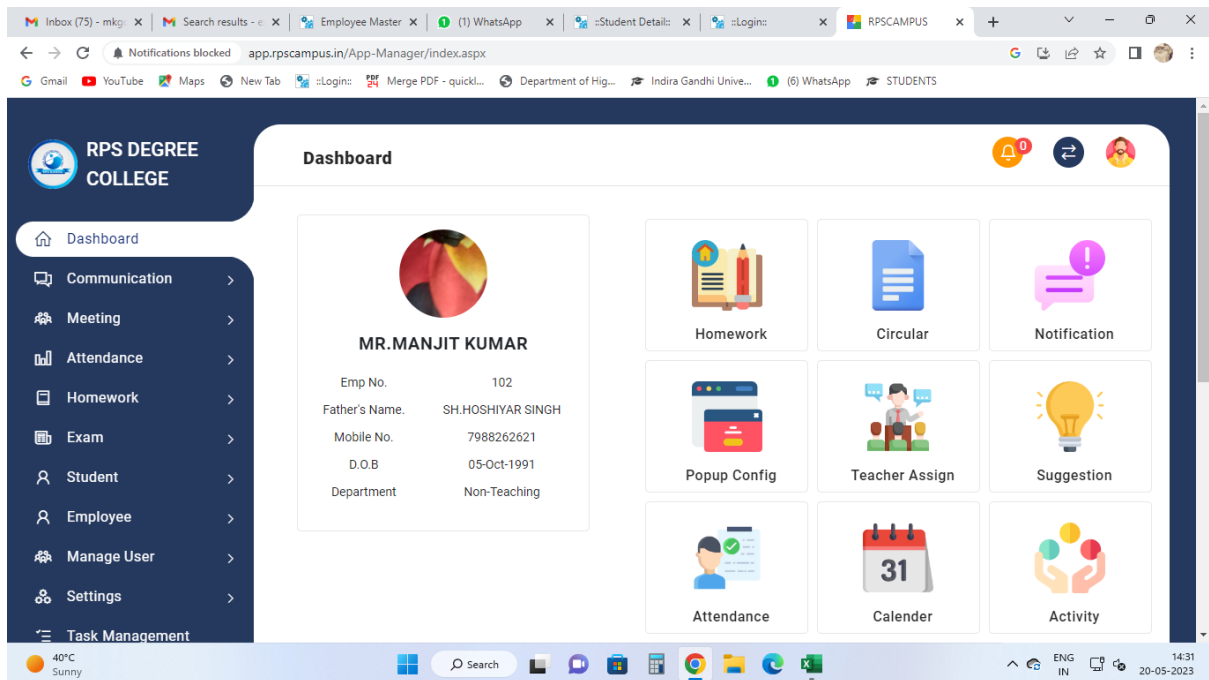

### WhatsApp Group “RPSDC” for Head of the Departments

## Communication to Head of the Department through Email

## Erp portal (RPS Campus) Faculty Account

2. **Finance and Accounts:** RPS is providing supportive hands to the digital India movement. All the financial record is maintained through erp portal of the college (RPS Campus). Students can deposit their fee through online panel of college (RPS Campus App) or via online portals like UPI payments. Fee on the cash counter is also collected through online portal. Salary of all teaching and non-teaching staff is also deposited digitally to their bank accounts directly.

Here are some screen shots related to finance and accounts data:
